- e. Requests for Dispensations: There were none recorded.
- f. Declarations of Lobbying: There were none recorded.

2.

Public session. (Minute book closed.)

3.

The minutes of the last meeting held on 1st November 2023 - These were approved and signed by the Chairman.

4.

Matters arising from the last meeting.

Schematic Maps for Open Spaces – Schematic maps detailing how to get to each of the Open Spaces in the Village. This is undergoing a major overhaul to better showcase the green spaces, more to come when the Clerk's Office is happy with it.

Bylaws and next steps – New Bylaws were needed to tighten and modernise "laws" for access and use of HPC green spaces. The committee agreed to the adoption of the said byelaws. The Clerks will now take the matter forward, which will involve steps prior to seeking approval of the Byelaws by the Secretary of State. The Clerks will chase the submission and will keep the committee advised of progress. Need to run a consultation. May need to wait till after the HNP is completed.

Memorial bench for Queen Elizabeth II - This would be a good use of S106 funds and the Clerk's Office will drive this forward with some suggestions of type of bench etc for the Committee to decide on a final design. The design originally envisioned is turning out to be very expensive. A smaller less expensive design is being considered.

Drainage on the Village Greens over winter Hoggs, Days and Parsonage (plus graveyard) all need a more robust drainage system plus new graveyard. - Hoggs Green gets waterlogged during the winter. The side by the river does have pipes leading out of the surface and into the river, despite being on a flood plain and has always had drainage problems and a liability to flooding. The Clerk's Office has received several reports about the Village greens being a bit wet and muddy over the winter months. We will be asking FGS Pilcher once the weather is suitable for this endeavour.

Disabled Parking for Methodist Hall and if the Parking could be met from HPC land either in Church Lane or some other land. – The Hardstanding has been completed. It was also mentioned that perhaps removing the degraded double yellow lines from Church Lane and

replacing them with demarcated parking bays might help ease problems there as well – Clerks to obtain quotes. Quotes obtained and agreed work will be starting imminently.

Permanent Gazebo on Parsonage Meadow for Music, Theatre etc. - It was decided that the Gazebo is a good idea and after a small consultation with the Village something that People would welcome, however, planning permission will be required and S106 funds can be used. The Clerks Office will look in to grants and other funding for this project. On going pending quotes.

The “tidying” of the ditch between the Parish Graveyard and the Village Hall. - The ditch between the above locations has become significantly overgrown with brambles etc. Whilst this is a haven for wildlife it is in danger of filling in the drainage ditch and becoming untameable. It was agreed that the Clerk’s Office would find someone to rectify this and have the lengthsman reinstate the fence and enable us to manage this useful natural microecology. This will be completed after the nesting season. Contact Mr Edmonds or Tassel for this. Waiting for weather to be better so as not to churn up Parsonage Meadow.

Traditionally laid hedging at Millbank Meadow and any other areas that might be suitable.

-Clerks to arrange a walk around Millbank Meadow once we have the land with Dr Roberts, George Edmonds, Councillors and Lengthsman to see if hedging would be appropriate for some areas. Walk about done, a holistic plan for all options to be drawn up including hedging. The first thing to be done is an ecological survey to catalogue the species that currently live there and what can be done to encourage plants and animals without destroying any valuable species that currently live there. Survey to be carried out in spring.

New bench(s) halfway down the Weavers PROW when we are upgrading the surface. - PROW completed, benches to be looked into.

Upgrading some of the items in the play area on Days Green. - All reviewed the quotes and agreed to the additional works – this will now be taken forward by Clerks Office with Contractor. Under way. Completed will be removed.

To discuss the possibility of installing ping pong / table tennis tables and a running / cycling track on Hoggs Bridge Green or Parsonage Meadow. - This matter was as a result of Parishioners asking for more things to do on the open spaces during summer. This was discussed and the Committee is in favour of this, pending costs and where they should be sited. The idea of a running track will be supervised by Cllr Gearing with help from the Clerk’s Office.

To discuss compost clamps/bins for The Allotment Association. - This will allow the allotments to better handle and recycle vegetable waste in the custom built compost clamps/bins.

It was agreed that we would accept the quote from Phill Tassel and have him complete the works in conjunction with the Allotments Management Representatives. Being done right now.

To discuss extra tree fitted Christmas lights in Village. - It was agreed that the new lights and fittings would be a lovely addition to the display we currently have adding a much more Christmas feel to the entrance to the Village. The trees to be fitted are the Chestnut tree beside the already lit Lime trees on the corner of Days Green, the Lime tree on the opposite corner and the third Chestnut tree beside the two already lit trees by the Lych gate. They will be fitted in the next couple of weeks. Completed and will be removed.

To discuss the possibility of installing a horse hitching post on Days Green. - This was discussed and it was agreed to investigate if they could be placed in such a way as to double up as goal posts as well as find pricings etc.

5. To receive a Budget Analysis report.

The budget was reviewed.

6. To discuss quotes for direction posts.

It was decided that we would check with KCC and as long as they approve we would install the selected posts.

7. To discuss creating a Buddleia hedge for Spires Ash to encourage insects and create an easy to look after hedge.

It was decided that a Buddleia hedge would be a nice addition to spires ash and allow us to keep the brambles and ivy down from that boundary.

8. To discuss possibly ideas going forward into 2024/25 Open Spaces Projects suggestions, bearing in mind that we have a number of ongoing projects which will need to be considered with regards to budget.

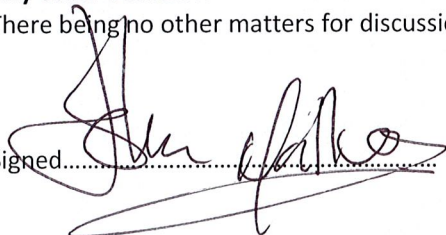

It was decided that we had enough projects to contend with at the moment and that this coming year we would concentrate on that and any emergency projects that come up. The only other thing that came up was shallow drainage channels for the fruit trees on Hoggs Green.

9. To receive correspondence and action, as necessary.

There was no correspondence.

10. Any other business.

There being no other matters for discussion the meeting closed at 6.55pm.

Signed.....

Date.....14/2/24.....
